OBJECTIVE

Computer Science undergraduate at FAST National University (GPA: 3.97/4.0) with hands-on experience in Artificial Intelligence, Machine Learning, deep learning, and full-stack development. Seeking a role where I can apply my expertise in AI/ML systems, anomaly detection, and NLP to build impactful, production-ready solutions.

EDUCATION

FAST National University of Computer and Emerging Sciences — Karachi, Pakistan B.Sc. Computer Science | GPA: 3.97 / 4.0 | 2023 – Present

Relevant Coursework: Artificial Intelligence, Deep Learning, Natural Language Processing, Data Structures and Algorithms, Database Systems, Operating Systems, Linear Algebra, Probability and Statistics

Aga Khan Higher Secondary School — Karachi, Pakistan Intermediate, Pre-Engineering | 2021 – 2023 | Result: 96.6%

Habib Public School — Karachi, Pakistan O-Levels | 2021 | Result: 92%

TECHNICAL SKILLS

Category	Skills
Programming Languages	Python, C++, JavaScript
Machine Learning and AI	TensorFlow, Keras, scikit-learn, deep learning, CNNs, RNNs, transformer models, NLP, LLMs, anomaly detection, UEBA, sequence modelling
Data Science	Pandas, NumPy, Matplotlib, feature engineering, data preprocessing, statistical analysis
Web Development	React.js, Node.js, Express.js, MongoDB, REST APIs, HTML, CSS, MERN stack
Tools and Technologies	Git, Docker, Jupyter Notebook, Linux, VS Code
Mathematics	Linear Algebra, Calculus, Probability, Statistics

EXPERIENCE

Independent AI/ML Researcher | Jan 2025 – Present Self-Directed Research, Karachi

- Conducted independent research on anomaly detection and User and Entity Behavior Analytics (UEBA) using deep learning.
- Reviewed and synthesised academic literature on sequence modelling, neural network architectures, and cybersecurity threat detection.

- Preprocessed large event log datasets and built deep learning models from scratch to detect anomalous behaviour patterns.
- Documented findings and maintained structured research notes and model evaluation reports.

Freelance Web Developer | Jun 2024 – Present Self-employed, Karachi

- Designed and delivered full-stack web applications for small businesses using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented JWT-based authentication, role-based access control, and RESTful APIs.
- Managed full project lifecycle: requirements gathering, iterative design, development, deployment, and post-launch support.

PROJECTS

UEBA Deep Learning System *Python, TensorFlow, Keras, Pandas, NumPy*

- Built a User and Entity Behavior Analytics system using deep neural networks for cybersecurity anomaly detection.
- Engineered features from raw event logs and trained sequence models to identify malicious behaviour patterns with high precision.

AI Data Chat System *Python, NLP, Pandas*

- Developed a conversational interface that allows natural language querying on structured datasets.
- Designed an NLP-based query parsing pipeline bridging non-technical users with raw data for real-time analytics.

Deep Learning Image Classifier *Python, TensorFlow, Keras, CNNs*

- Designed and trained a Convolutional Neural Network achieving 95% accuracy on image classification.
- Applied dropout and batch normalisation to reduce overfitting; implemented custom training and evaluation pipelines.

MERN Stack E-Commerce Application *MongoDB, Express.js, React.js, Node.js, JWT*

- Built a full-stack e-commerce platform with product catalogue, shopping cart, REST API backend, and responsive UI.
- Implemented secure JWT-based authentication and role-based access control.

Calculus Solver Web Application *JavaScript, HTML, CSS*

- Built a browser-based tool for computing derivatives and integrals symbolically with real-time mathematical visualisation.

Library Management System *x86 Assembly, Irvine32*

- Implemented a console-based library management system in x86 Assembly demonstrating low-level memory management and system calls.

CERTIFICATIONS AND ACHIEVEMENTS

- GPA: 3.97 / 4.0 — consistently top academic standing at FAST-NUCES
- Strong academic background across AI, Deep Learning, NLP, and Mathematics
