OptObjective

Motivated Computer Science undergraduate at FAST National University (GPA: 3.97/4.0) seeking opportunities to apply expertise in Artificial Intelligence, Machine Learning, and full-stack web development. Eager to contribute to innovative, real-world projects that solve meaningful problems while continuing to grow as a software engineer and researcher.

OptEducation

FAST National University of Computer and Emerging Sciences

2023 – Present

B.Sc. Computer Science

GPA: 3.97 / 4.0

Relevant Coursework: Artificial Intelligence · Deep Learning · Data Structures · Algorithms · Database Systems · Operating Systems · Linear Algebra · Probability & Statistics

Aga Khan Higher Secondary School

2021 – 2023

Intermediate (Pre-Engineering)

Result: 96.6%

Habib Public School

2021

O-Levels

Result: 92%

OptTechnical Skills

Programming Languages	Python, C++, JavaScript
Web Development	HTML, CSS, React.js, Node.js, Express.js, REST APIs
Data Science & ML	Pandas, NumPy, Matplotlib, scikit-learn, TensorFlow, Keras
CS Fundamentals	Data Structures, Algorithms, Operating Systems, Compiler Design
Mathematics	Linear Algebra, Calculus, Probability, Statistics
Tools & Technologies	Git, Docker, Jupyter Notebook, Linux/Unix, VS Code

OptProjects

AI Data Chat System

 [GitHub](#)

- Built a Python-based conversational interface enabling natural-language queries on structured datasets.
- Integrated Pandas for real-time data processing, filtering, and analytics.
- Designed intuitive query parsing to bridge non-technical users and raw data.

UEBA Deep Learning Project

 [GitHub](#)

- Developed a User and Entity Behavior Analytics (UEBA) system using deep neural networks.
- Engineered features from raw event logs and trained models to detect anomalous behavior patterns.
- Achieved high precision in flagging security threats using sequence modelling techniques.

Deep Learning Image Classifier

 [GitHub](#)

- Built a Convolutional Neural Network (CNN) achieving **95% accuracy** on image classification.
- Applied dropout and batch normalisation to reduce overfitting and improve generalisation.
- Implemented using TensorFlow/Keras with custom training and evaluation pipelines.

MERN Stack E-Commerce Application

 [GitHub](#)

- Full-stack web application built with MongoDB, Express.js, React.js, and Node.js.
- Features include product catalogue, shopping cart, REST APIs, and a responsive UI.
- Implemented JWT-based authentication and role-based access control.

Calculus Solver Web Application

- Interactive browser-based tool for computing derivatives and integrals symbolically.
- Integrated real-time mathematical visualisation for a student-friendly learning experience.

Library Management System (Assembly)

- Console-based system implemented in x86 Assembly using the Irvine32 library.
- Demonstrated low-level memory management, system calls, and data structure manipulation.

OptExperience

Undergraduate Research Assistant

Jan 2025 – Present

FAST National University of Computer and Emerging Sciences, Karachi

- Collaborated with faculty on AI/ML research focused on anomaly detection and behavioural analytics.
- Conducted literature reviews, preprocessed datasets, and implemented baseline deep learning models.
- Presented weekly progress reports and contributed to academic documentation and writeups.

Freelance Web Developer

Jun 2024 – Present

Self-employed

- Designed and delivered custom web solutions for small businesses using the MERN stack.
- Collaborated with clients to gather requirements, iterate on designs, and deploy production-ready apps.
- Maintained post-launch support and implemented feature enhancements based on user feedback.

Teaching Assistant — Programming Fundamentals

Feb 2024 – Jun 2024

FAST National University of Computer and Emerging Sciences, Karachi

- Assisted in delivering lab sessions for first-year Computer Science students in C++.
- Evaluated assignments and provided detailed feedback to improve coding skills and problem-solving.
- Hosted weekly office hours to support students with debugging and algorithmic thinking.
